

Entering Tuscany

For everyone who enter Tuscany, or have entered it during the last 14 days, except for those whose movements are motivated by work needs or those who have necessity circumstances, or health reasons, after having stayed in areas of epidemiological risk, as identified by the World Health Organization, or in the other regions and provinces, which are identified by the relevant national provisions, it is mandatory for people residing or domiciled in Tuscany to proceed with voluntary fiduciary isolation from the day of the last exposure, communicating this circumstance, especially if symptoms occur, to your doctor or pediatrician, or to the following contacts provided by Healthcare companies:

Asl Tuscany center (Florence, Prato, Pistoia, Empoli)

tel. 055.5454777 mail rientrocina@uslcentro.toscana.it

Asl Northwest Tuscany (Pisa, Livorno, Lucca, Massa Carrara, Viareggio)

tel. 050.954444 mail rientrocina@uslcentro.toscana.it

Asl south-east Tuscany (Arezzo, Grosseto, Siena)

tel. 800.579579 - 800.050529 mail rientrocina@uslcentro.toscana.it

People who arrives in Tuscany for other reasons apart from work needs, situations of necessity or health reasons, or has arrived there in the last fourteen days, after having stayed in areas at epidemiological risk, and those who don't have on the Tuscan territory his/her family doctor or pediatrician, just have to return to his/her home or residence, otherwise go on with a voluntary fiduciary isolation and relate it to the aforementioned business contacts. If the above mentioned subjects access an emergency room of the Tuscan Health Service, without requiring hospitalization, they will be invited to be taken in charge by their doctor or pediatrician at their place of residence, home, or residence outside Tuscany, that is where they will have to go.
